- How difficult will it be to implement the expansion?
- How else can we address campus positivity?
- What other ways can we improve regarding Mines’ sense of community?

As we move forward, I would like to approach the intangible aspects of campus such as involvement and community. I am excited to talk to Michaela about her ideas on campus culture and to implement a plan to tackle these complex issues.

In the Spring Semester, Office Hours will be held from 4-6 pm on Monday afternoons in the USG office.

Monthly summary

Overall, projects such as the expansion of ore print, outreach, and increased positivity are efforts to improve the entire campus community. In addition, 3QR, “What’s Your Beef?”, and office hours are being continually emphasized to increase intercommunication. Moving forward, the Freshman class hopes to transform campus culture and to increase student involvement. We want everyone to be excited to be at Mines. New office hours will take place Mondays from 4-6 pm in the USG office.
