Monthly summary

Last month and semester the Junior class was mainly busy with our What’s Your Beef Event. The event was very successful as we had over 25 posts on What’s Your Beef. After the event was held, the Juniors looked through the posts and helped determine the winners. The winners were then emailed and Chick-Fil-A gift cards were purchased. The winners could then pick up their gift card at the SAIL office. This month, the Junior class started going through all of the posts. We have answered a lot of them and have begun trying to come up with some solutions. So far, we are planning on getting a mop for the SRC floor, and have got trash cans and tortillas in Mines Market! YAY! We have also begun planning out the round table discussion that we will have with faculty, students, and staff about campus climate. So far, we have written a rough draft of a proposal that we are planning to have Bo read at faculty senate. We are then hoping he will gauge some interest so that we can begin planning concrete details. We want to make sure we reserve enough time and space for everyone who wants to attend to be able to. After he gives us the feedback we will then plan out the final details and begin writing a presentation for us to give at the round table. We are planning on giving a 15 min presentation and then opening up the discussion to some topic points. We want everyone to be able to express their concerns and opinions so the discussion is pretty open! After that, we will reevaluate and possibly see where the positivity movement can move forward.
